

## Homework 3.2. Family Network

### YOUR NETWORK AS A FAMILY

Think of people and services (such as "neuvola") that are important to you as an expecting couple and after the baby is born. (You don't have to be limited by geography in your choices.) Mark the most important close to the middle of the circle and those less important closer to the edge of the circle. Discuss your choices together: why did you choose the way you did and what meaning do you give to your choices.
