

VOLUNTEERING CERTIFICATE

[Name] has been active as a Belilingual Language Club volunteer [since/between time and time]. Specifically, [Name] ran meetings and planned activities for the [Language] club.

Belilingual language clubs enable multilingual families with under school-aged children, who speak the same minority language, to meet and come together to play, sing, craft and have fun. The clubs support children's language and identity development and give families an opportunity to experience their language and culture in a community. The clubs meet every two week for two hours.

As the club meetings are run organized by volunteers, they are an invaluable part of the Belilingual project.
